I am

A college student preparing for placements

A recent graduate searching for jobs

A job seeker improving career opportunities

A candidate preparing for interviews

But

I don’t know which skills are missing in my resume

I lack proper career guidance

I don’t receive feedback on interview preparation

I struggle to match my skills with industry needs

miro

I'm trying to

Create a strong and professional resume

Identify required skills for job roles

Prepare for technical and HR interviews

Improve my chances of getting hired

miro

Because

There is limited access to expert mentors

Students do not understand industry expectations

Resume reviews are time-consuming and manual

Few platforms provide AI-based career guidance

miro

Which makes me feel

Confused about my career direction

Less confident about job applications

Unprepared for interviews

Worried about getting job opportunities
