Project Design Phase-I
Proposed Solution Template

Date	24 Feb 2026
Team ID	699ec790745871b04830f7fe
Project Name	VidyaMitra: The Intelligent Career Agent AIPowered Resume Evaluator, Trainer & Career Agent
Maximum Marks	2 Marks

Proposed Solution Template:

Project team shall fill the following information in proposed solution template.

S.No.	Parameter	Description
1.	Problem Statement (Problem to be solved)	Many students and job seekers struggle to create effective resumes, identify required skills for job roles, and prepare for interviews. Traditional career guidance is often limited, expensive, or not personalized. As a result, candidates may miss job opportunities due to lack of proper guidance and skill development.
2.	Idea / Solution description	VidyaMitra is an AI-powered career guidance platform that evaluates resumes, identifies skill gaps, and provides personalized training recommendations. The system uses AI and NLP techniques to analyze resumes, suggest improvements, and generate mock interview questions. The platform also provides progress tracking and career development insights to help users improve their employability.
3.	Novelty / Uniqueness	The uniqueness of VidyaMitra lies in its integration of AI-driven resume analysis, skill gap detection, and automated mock interview training in a single platform. Unlike traditional resume checkers, the system provides personalized career guidance, continuous learning recommendations, and progress tracking through intelligent algorithms.

4.	Social Impact / Customer Satisfaction	VidyaMitra helps students and professionals improve their career opportunities by providing accessible and affordable career guidance. It empowers users to enhance their skills, prepare for interviews, and build stronger resumes. This contributes to better employment
		opportunities and increased confidence among job seekers.
5.	Business Model (Revenue Model)	The platform can follow a freemium business model where basic resume analysis and career insights are free, while advanced services such as detailed AI analysis, premium training resources, and personalized career coaching are offered through subscription plans. Institutions and companies can also subscribe for bulk student career guidance services.
6.	Scalability of the Solution	VidyaMitra can be easily scaled using cloud infrastructure to support a large number of users. The AI-based architecture and modular design allow the system to handle increasing resume analyses, training recommendations, and interview simulations efficiently. Cloud deployment enables global accessibility and performance scalability.
